

# VETERAN LAKE SKIPPER HAS QUIT THE BRIDGE

## CAPT. FOOTE RESIGNS AFTER FIFTY YEARS' SERVICE ON STEAMERS.

(Special Despatch to The Globe.)  
Port Arthur, Oct. 11.—Captain Foote, master of the steamer Noronic, has resigned from the service, after more than fifty years on the lakes, and thirty-five years with the Northern Navigation Company or its predecessors. His home is at Point Edward.

### "Fit" in Freighters' Crews.

Brockville, Oct. 11.—(Special.)—The freighter Yorkton, with eight members of the crew of eighteen down with suspected Spanish influenza, spent the night in port in an endeavor to secure the admission of the sufferers to local hospitals. Dr. MacAulay, Medical Officer of Health, investigated the circumstances, and the Yorkton left for Kingston, where it is hoped to find accommodation for the victims. The Imperial Oiltanker Imperial reported here to-day with three cases of Spanish influenza in her crew.

### Heaviest Bituminous Loading.

Cleveland, Oct. 11.—(Special.)—Bituminous loading yesterday was the heaviest of the season, but coal is coming forward rapidly and stocks are holding out well. The docks dumped 4,441 cars Thursday, and it was estimated that they would handle about 4,000 cars to-day. The railroads had 10,903 cars at the lake this morning, with 6,697 cars in transit, making 17,530 cars in sight. Tonnage is plentiful, and all prompt loading coal was covered. 21 vessels being named for cargoes. Shipments for the first six days of October were 1,006, 654 tons, not including fuel.

### Grain Moving Busily.

Cleveland, Oct. 11.—(Special.)—Stocks of grain are heavy, and vessel capacity for early loading is being chartered at about 1,000,000 bushels a day. Five steamers that will load about that much were placed to-day. All will report for cargoes by the first of the week. All the grain, except one small cargo, will go to Buffalo. The demand for early loading tonnage at Lake Michigan ports was supplied, and no charters were reported in that trade. Tonnage is coming out freely, and more capacity is available at Duluth, but when the Canadian grain is ready to move more will have to be withdrawn from the ore trade.

### Cut in Ore Shipments.

Cleveland, Oct. 11.—(Special.)—Ore shipments from some of the small mines in Lake Superior district will be cut off November 1, but replacements will be made in cases where ore is needed and requirements will be met. A cut of about 2,000,000 tons will be made in this season's schedule, and the total movement will be about 62,000,000 tons or nearly the same as last season. Ore is coming down as rapidly as the furnaces can handle it, and indications are the shippers will be in good condition by the end of the month. The waiting list was light all around to-day, and with good car supply at Buffalo the docks there were in better condition.

### At Canadian Ports.

KINGSTON, Oct. 11.—(Special.)—Arrived—St. Louis, Oswego, coal. Passed up—Advance. Cleared—Whelan, Sudus, light barges: McLeod, Welland Canal; Chamberlain Charlotte.

SAULT STE. MARIE, Ont., Oct. 11.—(Special.)—Up—Riverton, 7.30 p.m. Thursday; Hebard, 8.30; Ranney, 9.30.
