
SPANISH INFLUENZA SEIZES ALD. RAMSDEN

In Bed Since Friday and Physician Counsels Ut- most Caution

Ald. George Ramsden has been taken ill with Spanish influenza and has been confined to his bed since last Friday. On Saturday the Alderman's temperature was very high, but on Sunday night it had dropped some few degrees. His physician states that he must remain in bed for several days and take the utmost precaution. His son, Lieut. John Ramsden, M.C., has also been indisposed for the last few days through a slight cold.
