

BROUGHT BY U-BOAT.

Disease Raging in Spain Imported by Crews of German Submarines.

Madrid, May 29.—The grippe-like epidemic continues to spread. There are 120,000 victims in Madrid. King Alfonso is still in bed with the malady, but his condition is not dangerous.

The disease is affecting horses, cases among which are reported from the cavalry and public services.

The population are of the belief that the disease was brought to Spain by German submarines, as there are cases among crews of interned under-water boats. Some persons are of the opinion that it had been spread by microbes blown by the winds from the battle fronts.

The authorities have taken precautions to prevent an increase in the price of medicines as a result of the extraordinary demand due to the epidemic.

THIRTY U. S. CASUALTIES.

Washington, May 29.—The army casualty list to-day contained thirty names, divided as follows:—Killed in action, 5; died of wounds, 5; died of accident, 1; died of disease, 10; wounded severely, 7; missing in action, 2.

**Praises Selection
of Archdeacon Cody**

(Special Despatch to The Globe.)

Kingston, May 29.—(Special.) —

In discussing the appointment of Archdeacon Cody as Minister of Education for Ontario, Principal Taylor of Queen's University said: "It is a splendid appointment—bold, unusual and well made. It should be productive of the best results."

**Ideal Crop Weather
Over the Whole West**

(Special Despatch to The Globe.)

Winnipeg, May 29.—Ideal crop weather has prevailed over the whole of the West for the last three days following a period of cold and rain. There has been a big rise in the temperature, and splendid growing conditions exist. There is enough moisture in the ground to stand four weeks' dryness.
