

## **Those Handling Foods Should Take Great Care**

(Special Despatch to The Globe.)

Chatham, Oct. 4.—Dr. McRitchie, M. O.H., has issued a warning to all who are handling any foodstuffs that they should exercise special care if they have colds or have any symptoms of la grippe. So far there is only one case in the city that is suspected as Spanish Influenza, and that patient has been isolated.

### **TEACH FIRE PREVENTION.**

Stratford, Oct. 4.—(Special.)—The City Council Monday night will be asked to pass a resolution requesting the School Boards to assign half an hour a week to instruction of children in fire prevention. This request goes to the Council from the Fire, Light and Cemetery Committee.
