## CADET FLEMING MAY RECEIVE DISCHARGE

## Featherweight Champion Has Had Severe At- tack of Grippe

Montreal, Oct. 8.—Relatives in Montreal have been advised that Cadet Frankie Fleming, Canadian featherweight boxing champion, may shortly get his discharge from the Royal Air Force, if he has not already received it.

Fleming was stricken with a severe attack of grippe shortly after the Spanish Influenza made its appearance in Canada, and was laid up for nearly two weeks. As a result of the illness his eyes were seriously affected, and it is as a result of this, it is said, that he will be discharged.

Fleming is now thought to be visiting relatives of his wife in New York.
