

# HAS VISITED AIR FORCE CAMPS

**Lt.-Col. J. W. S. McCullough  
Replies to Alleged Criti-  
cism of Mayor Church**

Lieut.-Col. J. W. S. McCullough, Sanitary Officer for Military District No. 2 and Provincial Officer of Health, yesterday denied emphatically the statement reported to have been made by Mayor Church "that the nominal control of sanitation in military camps and barracks has been left in the hands of Col. McCullough, who has not visited one of the R.A.F. camps, and men are quarantined for all kinds of diseases, losing weeks from their training." The statement of Mayor Church was made in reference to the epidemic of so-called Spanish influenza.

"I desire to say in reply to that statement," Col. McCullough said to The Globe yesterday, "that I have visited all the R.A.F. camps in Military District No. 2, some of them a great number of times, and that I am constantly being consulted and have given advice in regard to sanitary measures in those camps, and that consequently the statement reported to have been made by Mayor Church in respect to this matter is entirely erroneous."

Dr. McCullough said that the question of the control of diseases in military camps is in the hands of the A.D.M.S. "As long as he is in the position of Sanitary Officer I will, to the best of my ability, carry out his orders," he said.

## Twenty-five German Planes Downed Monday

(Canadian Press Despatch.)

Paris, Oct. 1.—Twenty-five German airplanes were destroyed by French aviators yesterday, the War Office reported last night. Bombing squadrons dropped 26 tons of bombs on convoys and concentration points behind the enemy front. The statement says:

"On September 30 our aviators destroyed and put out of the flight 25 German airplanes and set fire to two captive balloons.

"Twenty-six tons of bombs were dropped on convoys and concentration points behind the enemy lines, especially on Challerange, Liry and Mont St. Martin. Thousands of rounds were fired at the enemy troops by French airmen."

George M. Reld will head the next Victory Loan drive in London. The choice was made by the Minister of Finance, and Mr. Reld has accepted. He was identified with the late Sir George Gibbons as a leader in the last campaign.

## TWO PUBLICATIONS PUT UNDER THE BAN

**EXTREMELY BOLSHEVISTIC  
PAPERS IN UKRAINIAN AND  
RUSSIAN LANGUAGES.**

(Canadian Press Despatch.)

Ottawa, Oct. 1.—The Secretary of State has issued warrants under the consolidated orders respecting censorship, forbidding the possession in Canada of copies of two largely-circulated and important foreign language publications of an extremely revolutionary and Socialistic type published in Winnipeg. Both of these newspapers are printed in the same office. One, a newspaper of many years' standing, is entitled The Robotchyj Narod, and is published in the Ukrainian language. The other, which is under distinct control, although printed on the same presses as this paper, is in the Russian language and entitled The Robotchyj Narod.

These papers have been publishing matter advocating the doctrines and practises of the Russian Bolsheviki, and have published considerable matter in criticism of the action of the allied powers in intervening in Siberia.
