

NOTES FROM THE CITY HALL

A rumor around the City Hall is that there may be another purchase offer in the near future by the Toronto Street Railway.

The Board of Control decided yesterday to oppose the application of York township to use the city service on certain streets, on the ground that the system is already overcrowded.

The city will supply monkeys from the Riverdale Zoo to the University of Toronto for research work in connection with "Spanish Influenza."

Mr. P. C. Larkin corrects the report that the trustees of the Toronto General Hospital had complained to the Mayor about overcrowding at the Base Hospital. He explains: "I, personally, as a citizen, on my own paper, and over my own signature, wrote to his Worship the Mayor about quite a different matter, asking him to use his good offices to bring about what I thought was in the interests of the city generally."

Commissioner Chisholm has withdrawn his resignation and will continue to act as local Fuel Controller.

The board instructed Commissioner Harris to move the uprights carrying the temporary trestle over Glen road back to the curb, a distance of four feet, at a cost of \$3,000.

The Finance Commissioner has proposed to the Board of Control that a definite amount should be set aside for patriotic and other grants, which would be included in the estimates and all grants made from this fund. On exhaustion of the fund no further grants should be made in that year.

Mayor Church contends that Col. McCullough cannot represent both the military and the Provincial Board of Health in the best interests of the health of the Province.
