London, Ont., Oct. 22.—Members of the West Middlesex division of the United Farmers of Ontario in session at Adelaide Town Hall adopted a set of regulations which is regarded as the first step into politics with a Farmers' party. Each candidate must subscribe in writing to the following conditions:

That he will prosecute his candidature without regard to the convenience of other political parties or candidates. That he will advocate the objects and program and adopt the policy of the U. F. O. That if elected he will sit in opposition and vote with the party on all questions coming within the scope of the principles of the U. F. O.

That he sign a resignation form to be prepared by the Executive calling for his immediate resignation should he at any time fail to live up to the foregoing conditions, the said form to be signed before nomination.
