

KAISER AGAIN VISITS TROOPS

Spends Sunday Greeting Soldiers and Getting Impressions of Victory

(Canadian Press Despatch.)

Amsterdam, June 6.—The German Emperor's special correspondent, Karl Rosner, who writes for The Lokal Anzeiger, describes the Emperor as spending a busy Sunday. From dawn to dusk he was on the battlefield greeting his troops, talking with the wounded and assimilating impressions of "the progressing victory."

He joined the Crown Prince at Laon and both went to La Fere, from which point the German Jaegers struck the first blow on March 21.

"The Emperor praised their work," continues Herr Rosner, "then with the Crown Prince, who was everywhere loudly cheered by the troops, proceeded to General von Francois' headquarters, and later made a tour of all the points from which the German storming columns started their operations in the Ailette Valley."

UNIVERSITY IN FRENCH WAR ZONE

Captain Cameron, Former Toronto Pastor, Tells of Vimy Ridge College

(Special Despatch to The Globe.)

New York, June 6.—A university in the war zone in France was described to-day by Capt. the Rev. William A. Cameron, 109th Canadian Infantry, who arrived at the national service section, United States Shipping Board, Hotel Manhattan, to begin a course of lectures through the country's shipyards. Capt. Cameron, three years at the front to his credit, was pastor of the Bloor Street Baptist Church, Toronto, at the outbreak of the war.

The university Capt. Cameron spoke off is back of the divisional line held by one of Canada's pioneer divisions. It is called the "University of Vimy Ridge," and the faculty includes about sixty officers and men who before the war were on the staffs of Canadian colleges. The students are all members of the Canadian forces, and number between 3,000 and 4,000. Most of the lectures are given in devastated fields or in Y.M.C.A. huts, the Y.M.C.A. supplying the textbooks, and there is always the chance that Fritz will drop shells on the "campus."

ST. JOHN HARBOR CONTRACT PASSED

AMENDED ORDER IN COUNCIL CALLS FOR \$500,000 EXPENDITURE THIS YEAR.

(Through Reuter's Ottawa Agency.)

Ottawa, June 6.—An amended order in Council respecting the continuation of the St. John harbor works by the new contractors, the St. John Drydock & Shipbuilding Company, was passed to-day. Provision is made only for necessary expenditures to meet the harbor requirements of the new drydock and shipbuilding plant to be established by the company. The total cost of the work planned for this year is estimated at half a million dollars, so far as the Federal Treasury is concerned. The Government will grant the usual subsidy for a drydock of the first class, which the company has arranged to build as speedily as possible. The final signing of the contract has been held up until now, pending the securing by Hon. Frank Carvell of more accurate and reliable engineering plans so as to guard against embarking in war time on expenditures that might run up into the millions.

Mysterious Sickness Attacks Copenhagen

(Copyright in Canada, 1918. Special Cable to The Globe and The New York Times.)

Copenhagen, June 6.—The papers to-day report a mysterious sickness similar to that in Spain which has shown itself in Copenhagen. Several cases are stated, especially of women, dropping in the streets in convulsions by reason of being underfed. Besides provisions being scarce, the substitutes are poor, not containing sufficient nourishment.
