

# TERRORISM AGAIN RULES IN RUSSIA

## Descriptions Given by Passengers Arriving in Sweden From Petrograd

(London Times Cable Service to The Globe. Copyright, 1918.)

Stockholm, Sept. 23.—Descriptions of the terrorism in Russia, given by passengers direct from Petrograd, confirm the rumors of a recrudescence of the evil and show that the United States proposition that the allied and neutral countries should join in some common action to bring to the knowledge of the perpetrators of the horrors in what light they are looked upon by the civilized world is a very timely necessity. It may be doubted, however, that such representation will prove efficacious, unless enforced by a prospective penalty. The representation by neutral Ministers in Petrograd only elicited a haughty reply from Tchitcherin denying their right to interfere and declaring that foreign subjects would be treated on the same footing as Russians when suspected of counter-revolutionary plots. What representations Germany made are not exactly known, but the effect has not been very lasting.

## FARMER CONFESSES FORGERY: IS FINED

### SIGNED WEIGHT CERTIFICATES FOR HAY—OFFENSE WAS IN DECEMBER.

(Special Despatch to The Globe.)

St. Thomas, Sept. 24.—Peter Johnson, a well-known farmer of West Lorne, appeared before Judge Colter this morning, and changing his former plea of "not guilty" to one of "guilty," on the charge of forging the name of Dr. Webster, the village Weigh Clerk, to weight certificates, was fined \$200 and all the costs involved in the case, which had been pending since last December, when the offense occurred. His Honor granted leniency to the prisoner on the application of barrister C. St. Clair Leitch, counsel for the accused, who drew attention to the fact that his client had suffered a severe accident some years ago when struck by a train, which was believed to have affected him mentally.
