

UNIQUE WAGER BY AGED PEDESTRIAN

O'Leary Will Attempt Feat No Man Has Ever Per- formed

Chicago, Oct. 12.—Dan O'Leary, the famous old pedestrian, made a peculiar bet with a well-known Chicago physician. They are both possessors of \$100 worth of Liberty bonds. Dan was telling the physician that he is 77 years of age, and he added that on June 29, 1921, which would be his eightieth birthday he intended to walk 100 miles inside of 24 hours. Dan has already walked 100 miles in 18 hours. The physician, who does not want his name made public, told Dan that no man who ever lived who was in his eightieth year could walk a distance of 100 miles in 24 hours. The argument ended in their wagering their \$100 Liberty bonds. Should Dan die before the date named the bet is off.
