

# DON SECTION OF VIADUCT OPENED

## Procession of Automobiles, Led by the Mayor, Crosses the Structure

With due ceremony the Don section of the Bloor street viaduct was opened yesterday morning, and, led by Mayor Church, a procession of automobiles crossed the splendid structure which has been the hope of the east end of the city for many years.

Owing to Spanish influenza, the designing engineer, Mr. Thomas Taylor, was unable to be present and the speeches were brief. Mayor Church, Commissioner R. C. Harris, Mr. Lionel Clarke, Chairman of the Harbor Commission, and Ald. W. W. Hiltz were the only speakers who addressed the gathering of citizens, including members of the Board of Control, Council and representative citizens.

Cheers for the King, Commissioner Harris, Mayor Church and other civic officials concluded the ceremony, which was held around one of Park Commissioner Chambers' portable band stands.
